12 CENTURIES OF MUSLIM PRESENCE IN EUROPE

ISLAM, IT'S *ALSO* OUR HISTORY!

12 Centuries of Muslim Presence in Europe

The exhibition showcases 12 centuries of Muslim presence on the continent.

The visitor is invited to participate in a journey from the eighth to the twenty-first centuries that will take them from Cordoba to Palermo, from Istanbul to Sarajevo, and on to our contemporary cities.

The exhibition uses all means of innovative museography to provoke intelligent thought and emotion: immersive settings, interactive media, visuals, olfactory devices, common objects, and ancient and contemporary works of art.

The exhibition will be created in two formats, so that it can be presented in spaces of varying capacity and travel around Europe.
